New Rates go into effect July 1, 2019

City Council's adopted budget for the upcoming Fiscal Year, beginning on July 1, 2019, sets forth a $5 rate increase for all monthly rates, including residential, garages, and lot parking to fund upcoming initiatives. All discounted rates will increase based on the associated market rate.   There will be no change to the on-street metered parking rates. Once parking access control upgrades are completed, daily rates will be $1 per half hour with $8 max and will be enforced 24 hours/seven days a week at the four automated garages: Campbell, Gainsboro, Church Avenue, and Market Garages.

The new rates will aid in funding new capital projects and capital maintenance repairs to the garages.   Planned work for this new fiscal year includes upgrades to obsolete parking access control equipment at three garages. Other repairs include rooftop sealant, joint repair, entrance ramp sealant, floor sealant, and interior curb repair at various garages. Due to increased parking demand, construction is anticipated for a new parking garage expected to go online in 2021.

The new rates will be reflected on the June 15th billing cycle for payments due on July 1st. A complete list of rates is located on rates at **www.PARKRoanoke.com**

June is National Safety Month

National Safety Month
www.NationalDayCalendar.com   June   #NationalSafetyMonth

Each week throughout National Safety Month in June is an opportunity to make a difference in your home, work, and community.   Improving safety standards at home and at work as well as identifying risks around your home protects your community and everyone!   Some ideas include increasing first aid and emergency awareness through drills, providing water safety tips for recreation, developing an emergency kit, and being sure to not lock pets or children in hot cars with windows up.   Here are some ways to become involved: Report repairs as needed. Hold drills at home to help children to know what to do in the event of fire, tornado, medical event or natural disaster. Participate in community emergency preparedness events. Take a CPR Class. Take a Defensive Driving Course. Identify fall hazards in the home. Assemble a First Aid Kit. Learn how to properly and safely change a flat tire. Visit the National Safety Council website for free posters, tip sheets, and more!

Thank you for parking with us. We appreciate your business!

Do you need a Residential Parking Permit for your neighborhood or downtown?

#9PMROUTINE

It is 9:00PM

Are your
• Car doors locked?
• Valuables removed from car?
• Garage doors closed and locked?
• Home doors closed and locked?
• *Porch lights on?*

Make this your routine every night.
